

Gold Springs Resource Corp.

(An Exploration Stage Company)

Consolidated Financial Statements
Years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Independent auditor's report

To the Shareholders of Gold Springs Resource Corp.

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Gold Springs Resource Corp. and its subsidiaries (together, the Company) as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

What we have audited

The Company's consolidated financial statements comprise:

- the consolidated statements of financial position as at December 31, 2025 and 2024;
- the consolidated statements of loss and comprehensive income (loss) for the years then ended;
- the consolidated statements of changes in equity for the years then ended;
- the consolidated statements of cash flows for the years then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

PricewaterhouseCoopers LLP
PwC Place, 250 Howe Street, Suite 1400
Vancouver, British Columbia, Canada V6C 3S7
T.: +1 604 806 7000, F.: +1 604 806 7806
Fax to mail: ca_vancouver_main_fax@pwc.com

"PwC" refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Material uncertainty related to going concern

We draw attention to note 1 to the consolidated financial statements, which describes events or conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Assessment of impairment indicators of mining claims and deferred exploration costs</p> <p>Refer to note 3 – Summary of material accounting policies and note 5 – Mining claims and deferred exploration costs to the consolidated financial statements.</p> <p>The carrying value of mining claims and deferred exploration costs related to the Gold Springs project amounted to \$26.4 million as at December 31, 2025. At each reporting period end, management applies judgment in assessing whether there are any indicators of impairment relating to</p>	<p>Our approach to addressing the matter included the following procedures, among others:</p> <ul style="list-style-type: none">• Obtained, for a sample of mining claims, by reference to government registries and other regulatory bodies, evidence to support the right to explore the area.• Assessed the planned substantive expenditures on further exploration for and evaluation of mineral resources in the specific area by reading board minutes and obtaining evidence of continued and planned substantive

Key audit matter

mining claims and deferred exploration costs. If there are indicators of impairment, the recoverable amount of the related asset is estimated in order to determine the extent of any impairment.

Indicators of impairment may include (i) the period during which the entity has the right to explore in the specific area has expired during the year or will expire in the near future and is not expected to be renewed, (ii) substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned, (iii) exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; and (iv) sufficient data exists to indicate that the carrying amount of the mining claims and deferred exploration costs is unlikely to be recovered in full from successful development or by sale. No impairment indicators were identified by management as at December 31, 2025.

We considered this a key audit matter due to (i) the significance of the mining claims and deferred exploration costs balance and (ii) the judgments made by management in its assessment of indicators of impairment related to mining claims and deferred exploration costs, which have resulted in a high degree of subjectivity in performing audit procedures related to these judgments applied by management.

How our audit addressed the key audit matter

expenditures, which included evaluating results of current year programs, and management's longer-term plans.

- Assessed whether the exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources, or whether sufficient data exists to indicate that the carrying value of mining claims and deferred exploration costs related to the Gold Springs project is unlikely to be recovered in full from successful development or by sale, based on evidence obtained in other areas of the audit.

Other information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Leonard Wadsworth.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

1 Nature of operations and going concern

Gold Springs Resource Corp. (“GRC” or the “Company”) was incorporated pursuant to the *Canada Business Corporations Act* by articles of incorporation dated September 28, 2006 and was continued under the *Business Corporations Act* (British Columbia) (“BCBCA”) on December 17, 2013. The Company is listed on the Toronto Stock Exchange (“TSX”) under the stock symbol GRC and on the OTCQB Venture Market (“OTCQB”) in the U.S. under the stock symbol GRCAF. The Company’s registered and head office is located at Suite 1100, 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5. The Company’s principal activities include the acquisition, exploration and development of mineral properties. The principal country where the Company has been undertaking exploration activities is the United States. Property interests are held through wholly owned subsidiaries.

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (defined below) and on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for at least the next twelve months from December 31, 2025.

The Company has incurred losses since inception and expects to incur further losses in the development of its operations and at December 31, 2025, the Company had a working capital (current assets less current liabilities) deficiency of \$2,931,536 (2024 – \$1,318,673). At that date, the Company also had an accumulated deficit of \$91,017,209 which has been funded primarily by the issuance of equity.

The Company’s ability to continue as a going concern is dependent upon its Secured Rights financing, other working capital advances and share issuances to provide the funding necessary to meet its obligations, general operating expenses and to continue to explore its mineral properties. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. These factors give rise to material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern and, therefore, whether it may be unable to realize its assets and discharge its liabilities in the normal course of business. These consolidated financial statements do not reflect the adjustments to the carrying values of the assets and liabilities, the reported expenses and the statements of financial position classifications that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2 Basis of presentation

Statement of compliance

The Company’s consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IFRS Accounting Standards”). The consolidated financial statements have been prepared under the historical cost convention, except for certain financial instruments carried at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These financial statements were approved by the board of directors on March 30, 2026.

Basis of consolidation

The consolidated financial statements include the results or financial information of Gold Springs Resource Corp. and its significant wholly-owned subsidiaries listed in the following table:

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Name	Country of incorporation
High Desert Gold Corporation	Canada
Gold Springs Resource Corp. (Delaware)	U.S.A.
Gold Springs LLC	U.S.A.

The results of each subsidiary will continue to be included in the consolidated financial statements of the Company until the date that the Company's control over the subsidiary ceases. All significant intercompany transactions and balances have been eliminated.

Recent accounting pronouncements

In April 2024, the IASB issued IFRS 18, Presentation and Disclosure in Financial Statements to replace IAS 1, Presentation of Financial Statements. The aim of IFRS 18 is to set out requirements for presentation and disclosure of financial statements to ensure the entity provides relevant and accurate information about its assets, liabilities, equity, income and expenses. IFRS 18 is effective for the Company as of January 1, 2027. The Company is currently assessing the impact of the new accounting standard on its financial statements.

In May 2024, the IASB issued certain amendments to IFRS 7, Financial Instruments: disclosures and IFRS 9, Financial Instruments. The Company considers the amendments relating to the classification and measurement of financial instruments to be the amendments applicable to its financial statements. Under those amendments, an entity shall recognise a financial asset or financial liability on the date on which it becomes party to the contractual provisions of the instrument. A financial asset is derecognised on the date on which the contractual rights to the cash flows expire or the asset is transferred. Unless an entity elects to apply a permitted derecognition exemption, a financial liability is derecognised on the settlement date, which is the date on which the liability is extinguished because the obligation specified in the contract is discharged or cancelled or expires or the liability otherwise qualifies for derecognition.

Under the liability derecognition exemption, an entity will derecognise a financial liability on the settlement date, when settling a financial liability (or part of a financial liability) in cash using an electronic payment system, an entity is permitted to deem the financial liability (or part of it) to be discharged before the settlement date if, and only if, the entity has initiated a payment instruction that resulted in:

- the entity having no practical ability to withdraw, stop or cancel the payment instruction;
- the entity having no practical ability to access the cash to be used for settlement as a result of the payment instruction; and
- the settlement risk associated with the electronic payment system being insignificant.

These amendments to IFRS 7 and IFRS 9 are effective for the Company as of January 1, 2026. These amendments are to be applied retrospectively but is not required to restate prior periods. The Company does not currently anticipate these amendments to have a material impact on its financial statements.

3 Summary of material accounting policies

Cash and cash equivalents

Cash and cash equivalents include cash and highly liquid investments held in the form of money market investments and certificates of deposit with investment terms of less than three months at acquisition.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Equipment

Equipment is carried at cost less accumulated depreciation and any recognized impairment loss, net of reversals. Depreciation is computed using the straight-line method over estimated useful lives as follows:

Furniture and equipment	5 years
Computer hardware	3 years
Computer software	1 year
Vehicles	5 years

Mining claims and deferred exploration costs

The Company is in the exploration stage and defers all exploration and evaluation expenditures related to its mineral properties until such time as the properties are put into commercial production, impaired, sold or abandoned. Exploration and evaluation expenditures include the costs of acquiring licenses and costs associated with exploration and evaluation activity. Mineral property option proceeds, if received, are credited against the deferred costs incurred by the Company on the property or properties being optioned. Proceeds received from a disposal of a property interest which are required to be expended on exploration of the mineral property are deferred and offset against the carrying value of the mineral property on a pro-rata basis of exploration expenditures incurred from the disposal proceeds. Under this method, the amounts shown as mining claims and deferred exploration represent costs incurred to date less amounts amortized, offset and/or written off, and do not necessarily represent present or future values.

Once the technical feasibility and commercial viability of the extraction of mineral reserves or resources from a particular mineral property has been determined, expenditures are reclassified to development assets within property, plant and equipment and are carried at cost until the properties to which the expenditures relate are sold, abandoned or determined by management to be impaired in value.

If a property is put into commercial production, the carrying value will be depleted using the unit of production basis. If a property is impaired, sold or abandoned, the expenditures will be charged to profit or loss in the related period.

Exploration costs that are not attributable to a specific property or that are incurred prior to the Company acquiring the legal rights to a property are charged to profit or loss as reconnaissance and sundry exploration.

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and regulatory requirements.

Recognition of Financial Instruments

The Company recognizes a financial asset or financial liability on the statement of financial position when it becomes a party to the contractual provisions of the financial instrument.

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics.

Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Financial assets at FVTOCI

Investments in equity instruments designated at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with both realized and unrealized gains and losses recognized in other comprehensive income (loss) in the period in which they arise.

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in profit or loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in profit or loss in the period in which they arise. Where management has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income (loss).

Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost.

At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

Derecognition of financial assets and liabilities

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in profit or loss in the period in which they arise. However, gains and losses on derecognition of financial assets designated as FVTOCI are recorded in other comprehensive income (loss) in the period in which they arise. Cumulative gains and losses on derecognized financial assets designated as FVTOCI are reclassified from accumulated other comprehensive income (loss) to deficit.

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired. Generally, the difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Impairment of long-lived assets

At the end of each reporting period the carrying amounts of the Company's long-lived assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset (or cash-generating unit) is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of the fair value less costs to sell and the value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. Management's assessment of a property's estimated fair market value may also be based upon a review of other property transactions that have occurred in the same geographic area as that of the property under review.

In assessing value in use, the estimated future pre-tax cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years.

Restoration, rehabilitation and environmental obligations

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized to the carrying amount of the asset, along with a corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on a number of facts such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates.

Discount rates using a risk-free rate that reflects the time value of money are used to calculate the net present value. The capitalized costs are charged against profit or loss over the economic life of the related asset, through amortization using the unit-of production method. The corresponding liability is progressively increased as the effect of discounting unwinds creating an accretion expense recognized in profit or loss.

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company may in the future be affected from time to time by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable. The Company has no material restoration, rehabilitation or environmental obligation as the disturbance to date is minimal.

Earnings per share

Basic earnings or loss per share represents the profit or loss for the period, divided by the weighted average number of Common shares in issue during the period. Diluted earnings or loss per share represents the profit or

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

loss for the period, divided by the weighted average number of Common shares in issue during the period plus the weighted average number of dilutive shares resulting from the exercise of stock options, warrants and other similar instruments where the inclusion of these would not be anti-dilutive. Diluted earnings or loss per share is calculated using the Treasury Stock Method which assumes proceeds raised from the assumed exercise of stock options, warrants and other similar instruments are used to repurchase Common shares in the open market.

Foreign currencies

The financial statements for the Company and each of its subsidiaries are prepared using their functional currencies. Functional currency is the currency of the primary economic environment in which an entity operates. The functional currency of the parent company, GRC, is the Canadian dollar; and the functional currency of each of the Company's subsidiaries is the U.S. dollar. The presentation currency of these consolidated financial statements is the U.S. dollar.

Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary assets and liabilities are translated using the historical rate on the date of the transaction. Non-monetary assets and liabilities that are stated at fair value are translated using the historical rate on the date that the fair value was determined. All gains and losses on translation of these foreign currency transactions are charged to profit or loss.

The statement of financial position of the parent company is translated into U.S. dollars using the exchange rate at the statement of financial position date and the statement of operations is translated into U.S. dollars using the average exchange rate for the period. All gains and losses on translation from the functional currency to the presentation currency are charged to other comprehensive income (loss).

Income tax

Income tax on the earnings or loss for the periods presented comprises current and deferred tax. Income tax is recognized in earnings or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The Company does not provide for temporary differences relating to differences relating to investments in subsidiaries, associates, and joint ventures to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position reporting date applicable to the period of expected realization or settlement.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Share capital

Transaction costs directly attributable to the issue of Common shares and share purchase options are recognized as a deduction from equity, net of any tax effects.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Share-based payments

The Company has established a share incentive plan (the “Plan”) for the benefit of full-time and part-time employees, officers, directors and consultants of the Company and its affiliates. The Plan includes a stock award plan comprised of stock options and share appreciation rights. The maximum number of shares available under the Plan is limited to 10% of the issued Common shares.

The fair value of all stock options granted is recorded as a charge to operations or deferred exploration costs and a credit to contributed surplus under the graded attribution method. The fair value, as adjusted for the estimated forfeiture rate, is measured at the date of grant and is recognized over the vesting period. The Company’s stock options are subject to graded vesting and thus each tranche in the award is considered a separate grant, with a different vesting date and fair value for purposes of recognizing share-based payment expense. Prior to the vesting date, the then-current fair values of stock options granted are recognized as share-based payment expense from the date of grant to the reporting date and credited to contributed surplus. Any consideration received on the exercise of stock options together with the related portion of contributed surplus is credited to share capital. The fair value of stock options is estimated using the Black-Scholes option pricing model.

Use of estimates, assumptions and judgments

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ significantly from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant accounting judgements are made in particular with regard to the Company’s assessment of impairment to the carrying value of mineral properties.

Going concern

The Company’s management has made an assessment of the Company’s ability to continue as a going concern. The Company’s ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its general operating expenses and to continue to explore its mineral properties, and to continue in business for at least the next twelve months. Management has determined that the Company will continue in business for at least the twelve months from the end of the reporting period. There are a number of factors considered by management in making this assessment as disclosed in Note 1.

Mining claims and deferred exploration costs

The recoverability of amounts shown as mining claims and deferred exploration costs is dependent upon the discovery of economically recoverable reserves, the Company’s ability to obtain financing to develop the properties, and the ultimate realization of profits through future production or sale of the properties.

At each reporting period end, management applies judgment in assessing whether there are any indicators of impairment relating to mining claims and deferred exploration costs. If there are indicators of impairment, the recoverable amount of the related asset is estimated in order to determine the extent of any impairment. Indicators of impairment may include (i) the period during which the entity has the right to explore in the specific area has expired during the period or will expire in the near future and is not expected to be renewed, (ii) substantive

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

(Presented in U.S. dollars)

expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned, (iii) exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; and (iv) sufficient data exist to indicate that the carrying amount of the mining claims and deferred exploration costs is unlikely to be recovered in full from successful development or by sale. No impairment indicators were identified by management as at December 31, 2025.

Share-based payments

The Company uses the fair-value method of accounting for share-based payments related to incentive stock options and compensation warrants granted, modified or settled. Under this method, compensation cost attributable to options granted is measured at fair value at the grant date and expensed over the vesting period. In determining the fair value, the Company makes estimates of the following key inputs: expected volatility of the stock, the expected life of the options, an estimated risk-free interest rate and for awards with performance targets, the probability of occurrence.

Warrants

In determining the fair value of warrants included in unit placements, the Company makes estimates of the expected volatility of the stock, the expected life of the warrants, and an estimated risk-free interest rate.

Gold Springs, USA

The Gold Springs mineral property was acquired through the 2013 acquisition of High Desert Gold Corporation (“HDG”). The Company owns 100% of the Gold Springs property free of royalties except as noted below.

During the year ended December 31, 2017 the Company increased the size of the Gold Springs property by entering into lease and surface use agreements. Pursuant to the agreements, the Company has entered into a 30 year lease beginning on October 25, 2017 for the mineral rights on certain patented mining claims and a 30 year surface use agreement on certain homestead lands (“Homestake property”) upon payment as follows: \$41,035 paid on execution of the agreement, \$40,000 on October 25, 2018 (paid), \$45,000 on October 25, 2019 (paid), \$50,000 on October 25, 2020 (paid) and \$55,000 on each subsequent anniversary, subject to adjustment based on the US Consumer Price Index, until October 25, 2047 (amounts required to have been paid are current as of December 31, 2025).

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

Royalties

The Company is currently subject to two royalties on two of its property interests. Of the current defined resources, less than 1% are subject to royalties. Upon commencement of commercial production on the Homestake property, the Company is to pay the lessor a 3% net smelter returns royalty (“NSR”). The Company has the right and option, prior to commencement of commercial production, to buy back 0.5% of the net smelter returns royalty for the sum of \$1,000,000, payable within 60 days from and after commencement of commercial production. In addition, the Company entered into a separate mineral lease agreement (no contractual payments outstanding) which requires the Company to pay the lessor of the properties a 3% NSR on any Leased Substances mined and marketed by the Company from the applicable property.

Reclamation Deposit

As at December 31, 2025 the Company had \$632,376 (2024 - \$593,983) of cash on direct deposit with Nevada and Utah land and environmental regulatory authorities for future remediation costs.

Resource Expansion Financing Program

During the years ended December 31, 2021 and 2023, the Company closed the first two tranches and a subsequent third tranche, respectively, of a non-brokered financing for a resource expansion program (the “Resource Expansion Financing Program”). The aggregate closing was for a total of \$3,300,000 Series A Secured Rights of the Company (the “Series A Secured Rights”). Investors (the “Series A Secured Rights Holders”) in each of the first and second tranches were also issued an aggregate 3,300,000 common share purchase warrants (the “Series A Secured Rights Warrants”), which subsequently expired. The Series A Secured Rights Warrants entitled the holders to purchase one common share of the Company for a period of two years as follows: a first tranche of 2,000,000 at a price of Cdn\$0.11 per share; a second tranche of 1,000,000 at a price of Cdn\$0.14 per share, and a third tranche of 300,000 at a price of Cdn\$0.13 per share. The balance of each tranche of Series A Secured Rights Warrants at December 31, 2025 was, respectively nil, nil and nil (December 31, 2024, respectively, – nil, nil and 300,000).

The Company wishes to raise an aggregate of \$20 million under the Resource Expansion Financing Program to fund exploration activities at the Gold Springs Project with the view to significantly expanding the gold and silver resources of the project to a minimum of 3 million gold-equivalent ounces, and to thereafter sell the Gold Springs Project or the Company (an “Exit Transaction”) to a third party (an “Acquirer”).

Proceeds received under the Resource Expansion Financing Program, are to be used, among others, to fund resource-expansion and definition drilling, extensive metallurgical testing, the completion of a preliminary feasibility study, the completion of an environmental impact statement and work required to obtain a mine permit.

Upon the occurrence of an Exit Transaction, the Series A Secured Rights Investors of the first \$10 million raised under the Resource Expansion Financing Program will be entitled to receive 1.5% of the net sale proceeds for every \$1 million (subsequently amended to 0.15% for every \$100,000) invested.

Consideration received from the Series A Secured Rights under the Resource Expansion Program was accounted for as a disposal of an interest in the Gold Springs Project. When the Series A Secured Rights funds are received they are recorded as deferred consideration, and, subsequent to closing of each applicable Secured Rights tranche, as those funds are expended on exploration costs and expansion of the mineral property the deferred consideration is offset against the carrying cost of the mineral property.

(Presented in U.S. dollars)

6 Redemption liability

On November 4, 2019 the Class B shares of the Company were redeemed for \$0.09827 per Class B share for an aggregate redemption amount of \$11,436,186. On May 9, 2023, the funds, previously held in trust with the Company's Transfer Agent, were returned to the Company as the Company has assumed the redemption payment obligation for the remaining eligible unredeemed Class B shares. At December 31, 2025, the remaining redemption liability was \$113,880 (2024 - \$113,880).

7 Loan payable

In May 2020, the Company received \$29,184 (Cdn \$40,000) in the form of a Canada Emergency Business Account ("CEBA") loan. CEBA was part of the economic assistance program launched by the Government of Canada to ensure that businesses have access to capital during the COVID-19 pandemic and was only to be used to pay non-deferrable operating expenses. During the period from receipt of the CEBA loan to December 31, 2023 (previously December 31, 2022), the "Initial Term", no interest was charged on the amount outstanding. An extension to the interest free period was announced by the Government of Canada to extend the Initial Term from December 31, 2022 to January 18, 2024 (the "Government Announcement"). The Company did not repay the CEBA loan as of January 18, 2024, and accordingly, from January 19, 2024 to December 31, 2026 (the "Extended Term") interest is paid monthly at a rate of 5% per annum on the outstanding balance. The balance of the CEBA loan is fully repayable on or before the end of the Extended Term as it was not repaid on or before the end of the Initial Term. As at December 31, 2025 the loan was repayable within 12 months from that date, accordingly the Company has classified the loan as current.

As at December 31, 2025, the balance of the CEBA loan payable is \$29,184 (Cdn \$40,000) (2024 - \$27,800 (Cdn \$40,000)). During the year ended December 31, 2025, the Company recorded interest expense of \$1,431 (2024 - \$1,347) on the CEBA loan.

8 Share capital

Authorized

An unlimited number of Class A Common shares ("Common shares") without par value and up to 127,328,790 Class B shares without par value. The holders of the Common shares are entitled to one vote per share. The holders of the Common shares are entitled to dividends, when and if declared by the directors of the Company. No dividends have ever been declared or paid as at December 31, 2025.

No Class B shares are outstanding as at December 31, 2025 (2024 – nil) (Note 6).

Financings

There were no financing activities during the year ended December 31, 2025.

During the year ended December 31, 2024, a total of 1,333,334 stock options were exercised for gross proceeds of \$82,816. A value of \$43,836 was transferred from the contributed surplus to share capital as a result. A further 300,000 options with an exercise value of \$26,150 were exercised by the CEO of the Company with the cost of exercise being offset against accounts payable owed by the Company to the CEO. Upon exercise of these options \$17,162, representing the previously recognized grant date fair value of the options exercised, was transferred from contributed surplus to share capital.

Expired	(2,378,333)	0.14	
Forfeited ³	(5,900,000)	0.08	
Balance – December 31, 2024	10,187,499	0.14	1.21
Granted ⁴	6,725,000	0.09	
Expired	(5,633,333)	0.19	
Forfeited ⁵	(4,400,000)	0.085	
Balance – December 31, 2025	6,879,166	0.09	1.90
Exercisable – December 31, 2025	3,662,499	0.08	1.36

¹ Included in options granted during the year ended December 31, 2024 are (i) 500,000 options which vest subject to the Company's share price reaching target prices of \$0.25 by June 30, 2024 (forfeited) and 1,500,000 options which vest subject to the Company's share price reaching target prices of \$0.50 by June 30, 2025 (forfeited); (ii) 1,000,000 options which vest subject to the Company closing the remaining \$6.7 million in Series A Secured Rights funding by December 31, 2024 (forfeited); (iii) 1,000,000 options which vest subject to the Company closing a total of \$20 million in Secured Rights funding by December 31, 2024 (forfeited) and (iv) 300,000 options which vest subject to the Company securing new funding, based on 100,000 options granted for each \$1 million raised, by December 31, 2024 (forfeited).

² During the year ended December 31, 2024, 300,000 options were exercised for gross proceeds of \$26,150 to set off accounts payable. Upon exercise of the options \$17,162, representing the previously recognized grant date fair value of the options exercised, was transferred from contributed surplus to share capital. Weighted average trading price of the Company's shares on the dates of the exercises of options was Cdn. \$0.08.

³ 5,900,000 options were forfeited during the year ended December 31, 2024 as the vesting conditions were not achieved. As a result, \$14,509 of previously recognized share-based compensation expense was reversed and credited against share-based compensation expense in the consolidated statements of earnings (loss).

⁴ Included in options granted during the period ended December 31, 2025 are (i) 2,000,000 options which vest subject to the Company's share price reaching a target price of \$0.50 by June 30, 2026; (ii) 1,000,000 options which vest subject to the Company closing an additional \$6.7 million in financing in any form by December 31, 2025 (forfeited); (iii) 1,000,000 options which vest subject to the Company closing an additional \$10 million in financing in any form (for a total of \$20 million including the previously issued Secured Rights) by December 31, 2025 (forfeited) and (iv) 900,000 options which vest subject to the Company securing new funding, based on 100,000 options granted for each \$1 million raised, by December 31, 2025 (forfeited).

⁵ 4,400,000 options were forfeited at December 31, 2025 as the vesting conditions were not achieved. As a result, \$11,143 of previously recognized share-based compensation expense was reversed and credited against share-based compensation expense in the consolidated statements of loss.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

During the year ended December 31, 2025, the Company recorded share-based payments in respect of the vesting of newly and previously granted stock options, of which \$51,752 (2024 - \$46,048) was recorded as a charge to operations, and \$7,066 was included in deferred exploration costs for the year ended December 31, 2025 (2024 - \$6,393).

The weighted average grant date fair value of 4,725,000 (2024 – 4,125,000) options, with no market conditions, granted during the year ended December 31, 2025 was \$0.03 (2024 - \$0.03) per option. The fair value of each option grant during the years ended December 31, 2025 and 2024 was estimated at the time of the grant using the Black-Scholes option pricing model with assumptions for grants as follows:

	2025	2024
Weighted average exercise price	Cdn. \$0.09	Cdn. \$0.075
Weighted average grant date share price	Cdn. \$0.085	Cdn. \$0.075
Risk-free interest rate	2.92%	3.35%
Expected life	3 years	3 years
Expected volatility	79%	72%
Dividend rate	0%	0%

The weighted average grant date fair value of 2,000,000 (2024 – 2,000,000) options, with market conditions, granted during the year ended December 31, 2025 was \$0.011 (2024 - \$0.006) per share. The fair value of each market condition option grant during the year ended December 31, 2025 and 2024 was estimated at the time of the grant using a Barrier option pricing model with assumptions for grants as follows:

	2025	2024
Weighted average exercise price	Cdn. \$0.09	Cdn. \$0.075
Weighted average grant date share price	Cdn. \$0.085	Cdn. \$0.075
Risk-free interest rate	2.77%	3.59%
Expected life	3 years	3 years
Expected volatility	109%	103%
Barrier range	Cdn. \$0.50	Cdn. \$0.25 - \$0.50
Dividend rate	0%	0%

The balance of options outstanding as at December 31, 2025 is as follows:

Expiry date	Exercise price Cdn\$	Number of options outstanding	Number of options exercisable
August 17, 2026	0.085	1,229,166	1,229,166
June 17, 2027	0.075	1,825,000	1,825,000
July 8, 2028	0.090	3,825,000	608,333
		6,879,166	3,662,499

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

All of the outstanding options have associated share appreciation rights which allow the optionees to exercise their options on a cashless basis resulting in a lesser number of common shares to be issued to the optionee pursuant to their exercise.

Warrants

The Company's warrants outstanding as at December 31, 2025 and 2024, and the changes for the years then ended are as follows:

	Number of warrants	Weighted average exercise price (per share) Cdn \$	Weighted average remaining life (years)
Balance – December 31, 2023	300,000	0.13	1.11
Balance – December 31, 2024	300,000	0.13	0.11
Expired	(300,000)	0.13	-
Balance – December 31, 2025	-	-	-

9 Income taxes

The tax on the Company's profit before tax differs from the amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

	2025	2024
Tax rate	27%	27%
Net earnings (loss) for the year	(661,670)	(676,990)
Provision for income taxes at applicable rates	178,651	182,787
Tax effects of:		
Prior year tax return true ups	(8,704)	(836)
Foreign exchange and rate differences	67,389	(131,683)
Non-deductible expenses and non-taxable gains	(13,973)	(12,433)
Losses and benefits recognized (not recognized)	(223,363)	(37,835)
Income tax expense	-	-

2044	488,000
2045	549,000
	<u>28,585,000</u>

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

The potential benefits of these carry-forward non-capital losses, capital losses and deductible temporary differences has not been recognized in these financial statements as it is not considered probable that sufficient future taxable profit in the same entity will allow the deferred tax asset to be recovered.

10 Related party transactions

Key management includes all the Officers and Directors of the Company. The compensation paid or payable to key management for services during the years ended December 31, 2025 and 2024 is as follows:

	2025	2024
	\$	\$
Directors' fees	48,562	44,014
Professional and management fees*	265,669	222,982
Share-based payments**	58,817	52,441
	373,048	319,437

* An amount of \$103,250 (2024 - \$68,350) is capitalized to deferred exploration costs

** Includes amounts capitalized to deferred exploration costs (Note 8)

The Company's related parties consist of the Company's officers, directors and/or companies associated with them, including (i) Gowling WLG (Canada) LLP which is a legal firm in which Tina Woodside-Shaw, the Chair and a director of the Company, is a partner, (ii) Malaspina Consultants Inc. ("Malaspina"), a consulting company in which Killian Ruby, the CFO of the Company, is President & CEO, and (iii) Direct Consulting Solutions SA ("Direct"), a consulting company in which Antonio Canton, the President & CEO and a director of the Company, is the President & CEO. All transactions with related parties have occurred in the normal course of the Company's operations and have been measured at the exchange amounts agreed to by the Company and the related parties.

In addition to the related party transactions disclosed in Note 8, the Company incurred the following additional expenditures with related parties during the years ended December 31, 2025 and 2024. All transactions with related parties have occurred in the normal course of the Company's operations and have been measured at the exchange amounts agreed to by the Company and the related parties:

	2025	2024
	\$	\$
Deferred financing fees	-	11,191
Professional fees	92,861	74,802
	92,861	85,993

Included in accounts payable, accrued and other liabilities at December 31, 2025 is an amount of \$1,436,618 (2024 - \$754,730) due to related parties (inclusive of the working capital advances noted below), which are non-interest bearing and have no specific terms of repayment. Included in accounts payable, accrued and other liabilities at December 31, 2025 are \$1,886,525 (2024 - \$680,000) representing working capital advances, of which \$736,525 (2024 - \$375,000) was provided by the CEO and President and a director of the Company (the "CEO"). Subsequent to December 31, 2025, the Company received further working capital advances of \$115,000, of which \$15,000 were provided by the CEO. See Note 8 for other related party transactions.

11 Contingencies and Pledge

The Company may be subject to various contingent liabilities that occur in the normal course of operations. The Company is not aware of any pending or threatened proceedings that would have a material adverse effect on the consolidated financial condition or future results of the Company.

Resource Expansion Financing Program (Note 5)

Under the terms of the Resource Expansion Program, the Company has given certain warranties and covenants to the Series A Secured Rights Investors, including a guarantee for its obligations under the funding agreement, and it has pledged 25% (2024 – 25%) of the issued and outstanding shares of its U.S subsidiary corporation that beneficially owns the Gold Springs Project (the “Gold Spring Subsidiary”).

Under the terms of the Resource Expansion Financing Program, if the Company is subject to a successful hostile take-over bid the Series A Secured Rights Investors are entitled to receive a cash payment equal to 5 times their amount invested and if the Company fails to comply with general obligations of the Resource Expansion Program, the Investors are entitled to a similar payment.

12 Segment information

The Company’s operations are limited to a single industry segment, being mineral exploration and development. Geographic segment information of the Company’s assets and liabilities as at December 31, 2025 and 2024 is as follows:

Identifiable assets	December 31, 2025	December 31, 2024
	\$	\$
Canada	128,757	92,437
United States	27,043,724	26,092,471
Total assets	27,172,481	26,184,908

Identifiable liabilities	December 31, 2025	December 31, 2024
	\$	\$
Canada	2,942,595	1,333,684
United States	139,068	136,585
Total liabilities	3,081,663	1,470,269

Geographic segmentation of the Company’s net loss for the years ended December 31, 2025 and 2024 is as follows:

	2025	2024
	\$	\$
Canada	(605,322)	(528,402)
United States	(56,348)	(148,588)
Net loss for the year	(661,670)	(676,990)

Amounts transferred from contributed surplus to share capital on option exercise	-	(43,836)
Amounts transferred from accounts payable in connection with option exercise	-	26,150
Share-based payments included in deferred exploration costs	7,066	6,393

Other cash flow information relating to operating activities is presented below:

	2025	2024
	\$	\$
Cash paid for interest	(1,431)	(1,347)
Cash received for interest	877	1,712
Cash paid for taxes	-	-

Cash and cash equivalents as at December 31, 2025 and 2024 was comprised solely of cash at bank.

14 Financial instruments

The Company's financial instruments as at December 31, 2025 and 2024 consist of cash and cash equivalents, receivables, reclamation deposits, accounts payable, redemption liabilities, and loan payable which are all classified as amortized cost.

The Company's activities expose it to a variety of financial risks: market risk (including, primarily, currency risk and interest rate risk), credit risk and liquidity risk. There have been no changes in any risk management policies during the year ended December 31, 2025.

Discussions of risks associated with financial assets and liabilities are detailed below:

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. A portion of the Company's financial assets and liabilities are denominated in foreign currencies giving rise to risks from changes in foreign exchange rates. The Company is exposed to currency exchange rate risks to the extent of its activities in the U.S. and/or in currencies which are not the functional currency of the economic environment in which the Company or its subsidiaries operate. Based on this exposure as at December 31, 2025 a 5% change in exchange rates could give rise to a change in the net gain

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

by approximately \$115,000 (2024 - \$44,000), which is primarily driven by the parent Company's USD and EUR accounts payable and accrued liabilities balance of \$2,137,556 and \$355,442 (EUR 302,799), respectively, at December 31, 2025 (2024 - \$814,178 and \$162,600 (EUR 156,724), respectively), because the parent Company has a Canadian Dollar functional currency. The Company does not use derivative financial instruments to manage its foreign exchange exposure.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The majority of the Company's credit risk exposure arises from its cash balances which are held with a Canadian chartered bank and from reclamation deposits held directly with governmental authorities in the United States. Accordingly, the Company's exposure to credit risk is considered to be limited. Cash equivalents consist of term deposits which have an original maturity of three months or less from the date of purchase and which are readily convertible into a known amount of cash. The Company also maintains deposits for ongoing working capital at major banks in the jurisdictions in which its foreign subsidiaries operate.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company manages its cash according to its operational needs and to maximize interest revenue. The Company is not significantly exposed to interest rate risk.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company manages liquidity risk by maintaining sufficient cash and cash equivalents balances to enable settlement of transactions on the due date. The Company's investment policy is to invest its cash in term deposits, with maturities of three months or less from the original date of acquisition. The Company's accounts payable are due on normal commercial terms. The Company's redemption obligations are due on demand once the redemption requests are received by the Company. See Note 1.

Management of capital

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain a flexible capital structure which optimizes the costs of capital as an acceptable risk. In the management of capital, the Company includes the components of equity attributable to shareholders.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust capital structure, the Company may attempt to issue new shares, issue debt, or acquire or dispose of assets.

The Company is dependent on the equity markets as its principal source of operating working capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support of its projects.

Gold Springs Resource Corp.

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Presented in U.S. dollars)

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

The Company is not subject to any capital requirements imposed by a regulator, other than continued listing requirements of the TSX. The Company expects to require additional capital resources in order to carry out its exploration plans and operations through the current operating period.

There have been no changes to the Company's approach in managing capital during the year ended December 31, 2025.
